

# AGELOC® BODY POLISH

## MEET AGELOC® BODY POLISH

Say hello to a perfectly polished you. Thanks to three kinds of exfoliation: physical, chemical, and enzymatic, ageLOC Body Polish helps transform your skin from dull to soft, smooth, and glowing in one cleansing and exfoliating in-shower step. Plus, the powerful, proprietary ingredients ensure your skin looks as young as it feels.

Reveal a softer, smoother, more radiant you with ageLOC Body Polish.

## WHY YOU'LL LOVE IT

- Exfoliates, polishes, and cleanses skin for a soft, smooth look and feel.
- Helps speed up skin cell turnover.
- Helps remove dull, dry skin to reveal glowing, soft, smooth skin.
- Effortlessly improves the appearance of dull skin.
- ageLOC targets the sources of aging to preserve the look of youth and reduce the appearance of aging.

## WHAT POWERS IT

- **Cellulose, Glycolic Acid, and Papain**—a blend of physical (cellulose), chemical (glycolic acid), and enzymatic (papain) exfoliators that work together for a soft, smooth look and feel. Plus, this unique blend helps speed up cell turnover to reveal glowing skin.
- **Body Silhouette Blend (Lotus Corniculatus Flower, Crithmum Maritimum, Safflower Seed Oil, and Green Tea Extract)**—a unique blend of botanical ingredients that target skin concerns, including tightening and smoothing.

- **ageLOC Blend**—a proprietary ingredient blend that targets the sources of aging to preserve the look of youth.

## HOW TO USE IT

Gently massage a generous amount onto wet skin using firm, circular motions. Rinse off and pat dry. Use at least three times per week to daily, as desired.

For best results, follow with ageLOC® WellSpa iO™ regimen, including ageLOC® Body Serum and ageLOC® Dermal Effects® Lotion.

## TRY THESE WITH IT

- ageLOC® Body Serum
- Sunright® InstaGlow
- Beauty Focus® MultiBeauty
- Beauty Focus® Collagen+

## CLINICAL RESULTS THAT PROVE IT

Thirty-two female subjects, ages 25–65, who presented with mild/moderate cellulite on upper thighs, and/or skin laxity, and crepey appearance on upper arms participated in this evaluation.

Subjects applied ageLOC Body Polish at least three times a week to cleanse the upper thighs, the upper arms, and generally over the body. They completed a self-perception survey at the following time points:

1. baseline
2. post-application
3. weeks 2 and 4

# AGELOC® BODY POLISH

Clinically tested self-perception results of a 4-week test included visible and textural improvements in skin, resulting in:

- Smoothness
- Softness
- Tightness
- Radiance
- Overall appearance

After four weeks of use, 9 out of 10 users agreed that their skin:

- Looked more radiant
- Felt more energized
- Looked more vibrant
- Had a luminous glow

## LEARN MORE ABOUT IT

### Do I need to cleanse before using ageLOC Body Polish?

Not at all. You can use an additional daily body cleanser if you want, but Body Polish exfoliates, polishes, and cleanses in a single step.

### Which ingredients in ageLOC Body Polish exfoliate?

Cellulose provides gentle physical exfoliation, while glycolic acid and proteolytic enzymes (papain) provide chemical and enzymatic exfoliation for the whole body.

### Why do I need to exfoliate?

Your lifestyle, climate, and skin type can all lead to dry, rough patches that look dull, especially on your elbows and knees. Exfoliation provides invigorating stimulation to the legs, arms, and body. Using ageLOC Body Polish will help smooth and soften rough areas of skin.

### What is the difference between Liquid Body Lufra and ageLOC Body Polish?

Liquid Body Lufra is an exfoliating body cleanser that utilizes finely ground walnut husks to help remove dead skin cells and leave the skin feeling soft and smooth. ageLOC Body Polish is an advanced exfoliating body cleanser that leverages multiple technologies to help remove dead skin cells. It includes a blend of physical (cellulose), chemical (glycolic acid), and enzymatic (papain) exfoliants that leave the skin feeling soft and smooth.

It was developed to be softer and provides a more luxurious feel than Liquid Body Lufra.

### How does ageLOC Body Polish support Nu Skin's sustainability initiatives?

As responsible stewards of our planet, we have proudly designed the ageLOC Body Polish tube with 36% recycled material. Please check your local capabilities and recycle whenever possible. By purchasing ageLOC Body Polish, you're joining us in taking an active stride to ensure the future is bright for each of us. Please visit [nuskin.com/sustainability](https://nuskin.com/sustainability) to learn more and find recycling details.
